

MONITORING, EVALUATION, ACCOUNTABILITY AND LEARNING 8-WEEKS ONLINE

Join us for an 8-week enriching experience that combines theory, practice, and hands-on learning in a vibrant online setting. Specifically designed for development professionals, our MEAL is a fundamental course to enhance the effectiveness of programmes run by NGOs, governments, UN agencies and private sector organisations.

“The course was essential and enriching for me. It wasn't just valuable for my job and professional aspirations but also helped me organize my knowledge and gain a real understanding of MEAL. While I had some good experiences before taking this course, what it did best was teach me how to look at MEAL from a wider perspective and understand its essence and importance.”
